To search for specific names, type keywords into the search bar in your PDF reader. If a keyword search doesn't turn up expected results, it is recommended that you also scroll down into the alphabetical listings to search for the name, as the text-recognition software is not perfect.

The table of contents below can also give you an idea of where to look within the document for other kinds of information listed in the directory, like street guides, government listings, and advertisement indices. Note that the PDF page number and the original directory page numbers are different, because the color-printed advertisement pages in the directories were not numbered.

Table of Contents:

Description	PDF page number
Title page	2
Index to advertisements	5 – 8
Residential directory listings	10 – 1391
Brooklyn Business Register	1394 – 1401

PREFACE.

For the past thirty years we have annually published the Directory for Brooklyn.

Nothing shows the growth of a city better than its Directory, and reference to the number of names contained in each edition is a matter of general interest.

The volume of

1857	contained	45,900	names.	1875	contained	114,700	names.
1858	"	48,000	"	1880	"	132,200	"
1859	"	49,500	"	1885	"	162,900	"
1860	"	51,190	"	1886	"	175,700	"
1865	"	60,800	"	1887	"	182,000	"
1870	"	85,500	"				

This volume contains **188,974** names, an increase over last year of 6,974 names.

The population can be fairly estimated at 4½ times the number of names in the Directory, so that our population is not less than 850,000.

When the East River Bridge was completed, there were given to Brooklyn great facilities for travel, but this year gives us the long waited for rapid transit "direct up Fulton street," and also up Myrtle avenue.

As marvelous as has been the growth of our city, we predict a more rapid increase for the future.

We are keeping up with the times, and more than ever realize the importance and necessity of a reliable Directory. Our long experience has enabled us to avail ourselves of whatever can be best used to give the public a city Directory as nearly perfect as such a work can be made.

Some errors and omissions are charged to us which are impossible for us to correct. Some people refuse information; others permit servants (who are sometimes not the most intelligent) to give the information.

We again call upon the public to aid us in making our Directory as perfect as possible, by giving us their co-operation.

BROOKLYN, June, 1888.
